

MKS® Body Belt

☎ 00800 03032900

Stabilisation orthosis with upgrade option

Sizes

This product is also available in pediatric sizes.

Indications

- Lower back pain
- Lumbago
- Spondylarthrosis
- Sacroiliac joint irritation
- Lumbar muscle insufficiency

Features

- Semi-elastic bandaging material
- Lateral reinforcing stays
- Firm abdominal piece with micro hook and loop fastener
- Back pocket suitable for silicone pad stimulating blood circulation or MKS® Osteo back plate

Mode of operation

Due to its semi-elastic bandaging material the MKS® Body Belt adjusts comfortably to the body. Through building up circular pressure the lumbar vertebral column is supported.

The firm fastener element provides the necessary abdominal pressure. Optionally, blood circulation can be stimulated by inserting the silicone pad into the integrated back pocket.
