

Lumbar Bandage with silicone pad stimulating blood circulation

Indications

- Severe lower back pain
- Severe lumbago
- Relapsing lumbago
- Osteochondrosis
- Spondylolysis without displacement of vertebrae
- Mild lumbar deformity (with displacement of vertebrae)
- Spondylarthrosis
- Sacroiliac joint irritation
- Lumbar muscle insufficiency

Features

- Circumference and shape can be adjusted
- Silicone Pad
- Semi-elastic bandaging material
- Lateral reinforcing stays
- Back pocket suitable for silicone pad stimulating blood circulation or MKS® Osteo back plate
- Firm abdominal piece with micro hook and loop fastener

Silicone Pad

Mode of Operation

Due to its semi-elastic bandaging material the MKS® Lumbago Vario adjusts comfortably to the body. Through building up circular pressure the lumbar vertebral column is supported. The firm fastener element provides the necessary abdominal pressure which can be enhanced through the additional tensioning straps. The inserted silicone pad in the integrated back pocket stimulates blood circulation.

Size chart and article numbers

Size	Standard	Extra
Body circumference [cm]	70 - 95	95 - 125
Abdominal height [cm]	18	18
Back height [cm]	25	25
Art.-No.	581-069-S	581-070-S

Build-up

The MKS® Lumbago Vario consists of two side sections, a center section, and a textile cover. This allows the bandage to be adapted to different body shapes. Depending on the required circumference and desired shape, the two side sections are attached symmetrically to the center section using Velcro. The sewn-on markings serve as a guide for this.

- other: _____

Abdominal height
 Maximum front height of the textile body belt

Front height
 Measured from the upper edge of the pubic bone to the sternum (3-4 below the collarbone)

Body circumference
 Measured at the middle of the torso (just above the navel)

Back height reclination

Measured from the sacrum (beginning of gluteal fold) to circa 2-3 cm below cervical vertebra C7

Back height

Measured from the sacrum to circa 2-3 cm below the tips of the shoulder blades
