FUNKTIONELLE REHABILITATION

MKS® Body Belt plus

User Instructions

1. Introduction

1.1. Foreword

Our MKS® Modular Corset System straightens and stabilizes defined areas of the vertebral column in order to achieve postural corrections which actively support rehabilitation in specific indications.

Our MKS® programme is comprised of a modular system which can be divided into an orthosis set consisting of rigid supportive elements and a set of partially elastic, smoothly-fitting back-and-body bandages which adapt comfortably to the body.

By combining the individual components of the two sets an exact adjustment to both the respective indication and the patient can be achieved.

1.2. Customer information

For your own safety, please read this User Instructions carefully before using the brace. Proper use and operation of the brace will only be possible if you have carefully read and understood all instructions, notes and procedures. Should you have any doubts with regard to the User Instructions, or should any of the instructions, operations or safety notes be unclear, please contact your local dealer or the manufacturer albrecht GmbH directly before using the brace. This holds particularly true for the safety notes.

1.3. Mode of operation

Due to its semi-elastic bandaging material the MKS® Body Belt plus adjusts comfortably to the body. Through building up circular pressure the lumbar vertebral column is supported. The firm fastener element provides the necessary abdominal pressure which can be enhanced through the additional tensioning straps. Optionally, blood circulation can be stimulated by inserting the silicone pad into the integrated back pocket.

1.4. Application

The brace must only be used for the orthotic treatment of the vertebral column.

The MKS® Body Belt plus assists treatment in the application area from the first to the fifth lumbar vertebral body. It provides stabilization of the entire spine. The MKS® Body Belt plus is intended to help you achieve a lifestyle that is as independent as possible while still meeting your needs and matching your personal capabilities.

L1 - L5

User Instructions

1.5. Scope of delivery

The MKS[®] Body Belt plus is delivered to you ready for use, in the size you ordered, with User Instructions and labeling on the product.

1.6. Declaration of conformity

The albrecht GmbH company as manufacturer with sole responsibility declares the conformity of the MKS[®] Body Belt plus brace with European Council Directive 93/42/EEC for medical devices.

1.7. Features

- Semi-elastic bandaging material
- Lateral reinforcing stays
- Firm abdominal piece with hook and loop fastener
- Back pocket suitable for silicone pad stimulating blood circulation or MKS[®] Osteo back plate
- Additional tensioning straps

1.8. Indications

The physician will decide on the type of treatment to apply based on his diagnosis. Generally the use of the MKS[®] Body Belt plus is indicated in:

All indications requiring a stabilization of the lumbar spine with adjustable pressure, such as:

- Lower back pain
- Lumbago
- Spondylarthrosis

- Sacroiliac joint irritation
- Lumbar muscle insufficiency

For all other indications a physician must be consulted.

1.9. Contra indications

The brace is only intended for use in contact with intact skin.

1.10. Safety Instructions

The optimal effect of the brace is only achieved when used correctly.

- The brace must only be used in the intact, complete and mechanically undamaged condition and with complete and intact cushioning and waders. This must be verified by the user before each usage.
- Opening or removing one or more belts, as well as excessive loosening of the wader when using the brace leads to a reduction of the therapeutic effect of the brace and may lead to injury.
- The brace must not be worn over open wounds.
- The skin should be free of oils, grease, gels or other debris, to prevent reactions with the skin or the structure of the material.
- The orthosis should fit firmly but not too tight, so as not to restrict the blood circulation and adversely affect nerve and lymph vessels. Excessive compression is therefore to be avoided.
- Combination with other products is currently not provided for or is to be agreed with the manufacturer in writing.

MKS® Body Belt plus

User Instructions

- The brace is not intended for single use, but is intended for multiple use by a single person.
- The product as delivered is not sterile.
- Contact your physician immediately in the event of an allergic reaction.
- Please note that cushioned sections can heat up under direct sunlight. Protect the orthosis from direct sunlight if necessary.
- Currently there is no test for flammability. Exercise caution when using the orthosis in the direct vicinity of open flames such as lighters and cigarettes.

1.11. Warranty

We assume the warranty for the brace for a period of 3 months. The brace is a medical rehabilitation device and must not be used for any purpose other than the intended, as described in the Instructions for Use. Changes to the brace or other applications require the written consent of the albrecht GMBH. If this is not obtained, the manufacturer may not honor the guarantee. If you are using single joints or other components, these should be used as intended. If changes or modifications (e.g. additional mounting holes) are made to the individual parts or components, the manufacturer's warranty no longer applies. The removal of or damage to the QM seal will also void the warranty.

1.12. Transfer of the brace

The brace is not intended for single use, but rather is intended for multiple use by a single person. We do not recommend transfer to other users. Should this be desired however, please ensure to pass on the care and cleaning instructions and have the brace checked by an authorized specialist dealer for safe and proper operation.

1.13. Disposal

The brace contains recyclable materials without toxic or other harmful substances or other environmentally hazardous substances. Provided it is not contaminated with infectious germs, the brace can be deposited in the normal waste disposal. To be sure, consult your specialist orthopedics dealer.

User Instructions

2. Individual adjustments

For those patients using the **MKS® Body Belt plus** for the first time it is important that they learn how to handle it. Putting it on and taking it off should be practiced.

Wear the **MKS® Body Belt plus** directly on the skin or over a tight-fitting singlet without any creases. It is recommended that an absorbent singlet be worn to avoid humidity caused by excessive sweating.

Put on the **MKS® Body Belt plus** as per the following instructions. This will ensure reliable effectiveness.

Always make sure that the **MKS® Body Belt plus** is a smooth and tight fit. However, in order to prevent constrictions along the edges it shouldn't be over-tightened.

- 1 Put the **MKS® Body Belt plus** around your waist from the back to the front making sure that the dark slide-in pocket rests inside against your back.
- 2 Press the band with the fleece on the front down on your stomach and pull the hook and loop fastener of the **MKS® Body Belt plus** forward so that you can feel a slight pressure around your waist.
- 3 Now press the hook and loop fastener of the tightened **MKS® Body Belt plus** on the fluffy end of the belt and flatten down the **MKS® Body Belt plus** with your hand.
- 4 Pull both ends of the additional belt forward until you reach the desired tension and then attach it onto the body belt through hook and loop connections.

MKS® Body Belt plus

User Instructions

Hand wash at 30°C

Do not bleach

Do not iron

Do not dry-clean

Do not tumble dry

3. Cleaning, maintenance and disinfection

The orthosis is designed to be maintenance-free. To ensure proper operation over the period of treatment the orthosis should be cleaned regularly (at least every 3 months) or as required, according to the following instructions.

3.1. Care

- The product as delivered is not sterile and is not suitable for sterilization.
- Do not use harsh or abrasive cleaners.
- All fabrics can be washed by hand at 30°C using water and a mild detergent and/or disinfectant.
- Not machine washable.
- The MKS® Body Belt plus can be dried in the open air.
- In the case of more severe soiling, a replacement set of textile parts is available.
- Wipe down surfaces with a cloth soaked with disinfectant.
- Wet completely, and do not wipe off.
- Spray inaccessible surfaces.
- When spraying ensure complete wetting.
- A mild alcohol-based disinfectant is recommended.

Ask your physician or pharmacist when selecting a disinfectant, and follow the instructions given by the disinfectant manufacturer. The Robert Koch list of approved disinfectants can be found at <http://www.rki.de>.

User Instructions

4. Technical data

| Description | Material |
|-------------|---|
| Body Belt | elastic material 28% viscose, 48% perlon, 24% elastodiene |
| | binding 83% viscose, 17% dorlastan |
| | velours PA |

5. Choice of size

The **MKS® Body Belt plus** is available in six sizes as per the table below. In addition, the function of the **MKS® Body Belt plus** can be extended with a supportive pad stimulating the blood flow in the slide-in back pocket specially designed for that purpose => **MKS® Lumbago**.

6. Size chart and article

| Size | Body circumference | Abdominal height | Height of back piece | Art.-No. |
|------|--------------------|------------------|----------------------|-----------|
| 1 | 60 - 70 cm | 18 cm | 22 cm | 582-201-S |
| 2 | 70 - 80 cm | 18 cm | 23 cm | 582-202-S |
| 3 | 80 - 90 cm | 18 cm | 23 cm | 582-203-S |
| 4 | 90 - 105 cm | 18 cm | 24 cm | 582-204-S |
| 5 | 105 - 120 cm | 18 cm | 24 cm | 582-205-S |
| 6 | 120 - 135 cm | 18 cm | 24 cm | 582-206-S |

Silicone pad optionally available. (Art.-No.: 350-014-S)

MKS Body Belt plus – reduced height

| Size | Body circumference | Abdominal height | Height of back piece | Art.-No. |
|------|--------------------|------------------|----------------------|------------|
| 1 | 60 - 70 cm | 14 cm | 18 cm | 582-201N-S |
| 2 | 70 - 80 cm | 14 cm | 19 cm | 582-202N-S |
| 3 | 80 - 90 cm | 14 cm | 19 cm | 582-203N-S |
| 4 | 90 - 105 cm | 14 cm | 20 cm | 582-204N-S |
| 5 | 105 - 120 cm | 14 cm | 20 cm | 582-205N-S |
| 6 | 120 - 135 cm | 14 cm | 20 cm | 582-206N-S |
